Signature _____ **Date** _____

Why are you asking me my race, ethnicity, and preferred language?

This information is required under new legislation from the U.S. Department of Health and Human Services (HHS). With the ongoing transition to electronic health records, HHS and our providers will be better able to assess this demographic data in a meaningful way. The goals of these initiatives include improving patient safety and overall healthcare quality. Additionally, we hope to be able to indentify health disparities and better understand and serve all of all patients.

Why are you asking for my email address?

We are now offering our patients easy and private access to their medical information online, so you can view your personal health record whenever and wherever you have access to the internet. You will have access to appointment dates, lab results, x-ray and diagnostic imaging, personal health record and health maintenance reminders. You will also be able to send messages to clinical staff.

You will only be asked for this information once by this office, and you have the right to decline answering these questions.
